**Adopt-a-School  
Project**

---

---

*“To provide quality education  
and  
promote oral health awareness  
for  
the community.”*

## What is the Adopt-a-School Project?

The **Adopt-a-School (AAS) Project** is part of the **Marin County Dental Society** and is designed to provide your school with a volunteer dentist who is available to assist in providing oral health education and screenings.

The dentist's unique knowledge of:

- Oral Health Care
- Caries Prevention
- Dental Hygiene
- Orthodontics
- Nutrition
- Smokeless Tobacco Products

can be utilized in each and every classroom, and is customized according to the needs of the class.

The **Marin County Dental Society's AAS Project** is a valuable community resource that can also *assist schools in meeting the California's State Mandated Kindergarten Screening Requirement.*

Join the other Marin County Schools and adopt a dentist through the Marin County Dental Society and call **415.472.7974** —

*(Please see additional contact information on reverse.)*

## How Can Your Adopt-a-School Dentist Help Your School?

**Tailored to Fit Your Needs —**  
AAS Dentists are happy to work with you to plan a presentation OR screening.

**How to Brush & Floss —**  
Presentations using large stuffed animal puppets and brushes for younger students; age appropriate information for older students.

**Nutrition for Healthy Teeth —**  
Presentations geared to all grade levels.

**Lesson Plan Ideas & Activities for Teachers**

**Career Day Participation —**  
Dentists, dental assistants, dental hygienists, and lab technicians share information and resources.

**Smokeless Tobacco Presentations —**  
Using videos, handouts, and sharing knowledge of the harmful effects of 'chew'.

**Mouthguard Presentations** to help keep students safe from preventable injuries.
